PROJECT MANAGEMENT

Intro

This week we dedicate time to project management. Project management involves the application of knowledge, skills, tools, and techniques to plan, execute, monitor, and control a project from start to finish. It encompasses various activities such as defining project objectives, creating a project plan, identifying project tasks, allocating resources, managing risks, tracking progress, and ensuring successful project completion.

Slides/ Video

The slides and lecture recording are available on Microsoft Teams channel and the unit site as well.

Instruction

Once you have completed viewing the lecture, write down a summary of project management strategy that you plan to apply for your proposed idea in 3.3P. (word limitation 500)

Submissions details and Delivery

After completing the task, please proceed to upload the converted PDF file on OnTrack.
